- Working knowledge of Geographical Information Systems (City currently uses ArcMap 10.4)

JOB SUMMARY

The purpose of this position is to manage, review and implement both current and long-range planning and development projects. This is accomplished by acting as project manager and reviewing development proposals related to land use, site and architectural design, including preparation and delivery of said recommendations to hearing bodies; prepares and manages amendments to the Zoning Ordinance and General Plan; provides technical assistance to developers, staff and the public; manages and/or develops special studies, reports and master plans. This position also provides technical support and supervision over other divisional personnel relating to development review and project management; and represents the city and department in both internal and external meetings.

ESSENTIAL FUNCTIONS

Note: This information is intended to be descriptive of the key responsibilities of the position. The list of essential functions below does not identify all duties performed by any single incumbent in this position.

#	Essential Functions
1	Serves as project manager for complex development projects.
2	Reviews, recommends, and prepares amendments regarding master plans, zoning ordinance, general plan, and other planning documents.
3	Organizes, manages, coordinates, and oversees special studies and projects, including budgetary and procurement decisions such as preparing RFQs / RFPs and purchase orders.
4	Provides technical assistance to divisional staff, developers, property owners, City staff, outside agencies, and the public.
5	Prepares and manages the creation of maps, graphs, and other visual aids in preparation for presentations before various boards, commissions, and Council.
